These videos are not public and can only be viewed by the direct links below:

I would like to add that the Tennant M20 that they are using in this video is not capable of cleaning the waste water in any way for dumping.

Video 1 below shows Eco Wash backing up to the garage drain:

Video 2 below shows Eco Wash removing the drain cover and drain filter which block large debris from passing thru:

We have a F650 truck with a 1600 gallon tank with a pump-out that we utilize for collecting our waste water, which was priced into our bid.

We would be ready to takeover and perform this contract correctly at the amount Eco Wash bid if needed.

Regards,

Cory Sharpsteen
